Journal of Mathematics and Physics

(Founded by C. L. E. Moore)

Volume XLV

1966

Board of Editors

E. REISSNER, *Managing Editor*

G. BIRKHOFF
B. BUDIANSKY
G. F. CARRIER
S. H. CRANDALL
H. FESHBACH
H. P. GREENSPAN
L. N. HOWARD
C. C. LIN
H. P. McKEAN
E. L. MOLLE-CHRISTENSEN
P. M. MORSE
R. F. PROBSTEIN
J. L. SANDERS
C. E. SHANNON
L. TRILLING

Published Quarterly at Mt. Royal & Guilford Aves., Baltimore, Md., 21202 for
Massachusetts Institute of Technology

TABLE OF CONTENTS—VOLUME 45

Asymptotic Solutions of Boundary Value Problems for Elastic Semi-infinite Circular Cylindrical Shells
By E. Reissner and J. G. Simmonds 1

On the Stress Distribution in a Shallow Logarithmic Shell of Revolution
By Thomas J. Lardner 23

Dislocations in Couple-Stress Elasticity
By H. Cohen 35

Some Problems in Two-Dimensional Electrostriction
By T. E. Smith and W. E. Warren 45

Long Non-Linear Waves in Fluid Flows
By D. J. Benney 52

An Exact Solution of the Two Group Milne Problem by the Method of Wiener and Hopf
By W. M. R. Williams 64

Solution of the Dirichlet Problem in Parallel Slit Domains
By H. L. Zuckerberg 77

On Some Eigenvalue Problems Involving Modified Bessel Functions
By D. Naylor 95

On the Complex Zeros of an Exponential Polynomial Occurring in the Study of the Stability of a Vacuum Diode
By R. Scozzafava 104

Evaluation of $\frac{1}{\sqrt{2\pi}}\int_0^\infty du\ u^{n-2} \exp\left\{-\frac{1}{2}(u-p)^2 - \frac{q}{u}\right\}$
By D. G. Anderson and H. K. Macomber 109

A Note on the Discrete Maximum Principle and Distribution Problems
By A. Charnes and K. Kortanek 121

Influence Coefficients for Semi-Infinite and Infinite Circular Cylindrical Elastic Shells
By James G. Simmonds 126

Long Waves on Liquid Films
By D. J. Benney 150

An Exact Solution for Oseen Flow Past a Half Plane and a Horizontal Force Singularity
By W. E. Olmstead 156

The Reflection of Waves at a Discontinuity in Refractive Index Gradient
By R. Burman 162

Markov Chain Theory of Free-Molecule Flow
By Yau Wu 169

The Inverse Problem of Electromagnetic Scattering Theory. I. A Uniqueness Theorem for Cylinders
By R. Mireles 179

The Eigenvalues of an Integral Equation in Anistotropic Neutron Transport Theory
By D. H. Sattinger 188

Thermodynamics of Large Viscoelastic Deformations
By K. C. Valanis 197

Some Aspects of a Flat Elliptical Crack Under Shear Stress
By W. T. Chen 213

Summation of Certain Legendre Series and Related Difference Equations
By Ari Ben-Menahem 224

An Identity Involving the Jacobian Elliptic Function
By K. S. Yee 229

A Note on Integrals Involving Parabolic Cylinder Functions
By C. Yeh 231
Remark Concerning a Paper by Imanuel Marx
By Richard R. Tucker 233
Solutions of a Certain Nonlinear Wave Equation
By Gerald Rosen 235
Nonlinear Gravity Waves in a Thin Sheet of Viscous Fluid
By C. C. Mei 266
On the Spectrum of an Operator Occurring in the Theory of Hydrodynamic Stability
By S. I. Rosencrans and D. H. Sattinger 289
Application of Oscillation Matrices to Diffusion-Convection Equations
By H. S. Price, R. S. Varga and J. E. Warren 301
An Interpolation Curve Using a Spline in Tension
By Daniel G. Schweikert 312
Excitation of a Warm Plasma by an Electric Dipole
By H. H. Kuehl 318
The Legendre Functions of a Second Kind with Complex Argument in the Theory of Wave Propagation
By R. Burridge 322
On Some Properties of the Integrals $\int_0^1 P_{2n}(t) \sin xt\, dt$ and $\int_0^1 P_{2n+1}(t) \cos xt\, dt$
By R. A. Bonham 331
Transition Solutions for Axisymmetric Shell Vibrations
By Edward W. Ross, Jr. 335
Analysis of Edge Notches in a Semi-Infinite Region
By O. L. Bowie 356
On a System of Simplified Equations for Finite Axisymmetric Deflections of an Annular Plate
By D. J. Evans and V. G. Hart 367
Error Bound on a Numerical Solution of a Quasi-Linear Wave Equation
By Robert E. Lynch 370
Solution of the Non-homogeneous Helmholtz Equation for Optical Gratings with Perfectly Conducting Boundaries
By R. P. McClellan and G. W. Stroke 383
Approximation of the Eigenvalues of Non Self-Adjoint Operators
By John E. Osborn 391
An Exact Solution for Oseen Flow Past a Half Plane and a Vertical Force Singularity
By W. E. Olmstead and W. J. Byrne, Jr. 402
On the Nonuniqueness of Oseen Flow Past a Half Plane
By W. E. Olmstead and D. L. Hector 408
The Perturbation of Some Two Dimensional Viscous Flows in a Finite Region
By K. B. Ranger 418
Note on Spheroidal Wave Functions
By J. E. Burke 425
